THE FACULTY OF SOUTHERN NAZARENE UNIVERSITY
FACULTY SCHOLARSHIP & PROFESSIONAL ACTIVITY

2010-2011
Our mission is to transform lives through higher education in Christ-centered community. As a Christian community of scholars, we model the hospitality of grace, the pursuit of truth, and the practice of discipleship, all within the Wesleyan-holiness tradition, as we prepare graduates who think with clarity, act with integrity, and serve with purpose.
The mission at Southern Nazarene University is to transform lives through higher education in Christ-centered community. As a Christian community of scholars, we model the hospitality of grace, the pursuit of truth, and the practice of discipleship, all within the Wesleyan-holiness tradition, as we prepare graduates who think with clarity, act with integrity, and serve with purpose.

It is the Christian community of scholars that we present to you in this publication. At its heart, the university is a residential gathering of scholars, supported by a corps of professional staff and administration. Each scholar pursues his or her own discipline and specialized area of inquiry by engaging in one or more forms of scholarship: discovery, integration, engagement, and teaching. Advanced, sustained scholarship, when combined with effective teaching and learning opportunities, provides depth and challenge in the curriculum.

As students participate in scholarly work with faculty, they are invited to experience another dimension of intellectual life. This student-faculty relationship is initiation, modeling, and mentoring at its best. And as students participate in community life with peers and support staff, they have opportunities to practice habits of mind and heart that reflect education in its fullest and best expressions.

Our educational mission is fulfilled within a communal framework. That community comes from the common pursuit of scholarship and our shared commitment to the person and work of Christ. We confess that God has made known through Christ the most significant truth that can be known by humankind -- God’s nature and purpose. We belong together as learners and teachers because we all first of all belong to Christ.

In these pages, you will discover the commitment, excellence, the breadth and depth of the Southern Nazarene University faculty who individually and collectively are committed to the best in student learning and to the Christ we serve. I commend them to you.
