New Student Referral Voucher

Enrollment is vital to the health and vitality of our school. The best advocates for the School for Children are you, our families. So in an attempt to help the school grow enrollment and help our loyal families, the new student referral program was established. Help the school increase its enrollment and the school will provide you with a credit to your tuition account.

1. When a new student* is recruited by the family of a current student, a discount of 10% will be applied to the account of the student who gave the referral. *Note: A new student is a child who has never been enrolled at the School for Children. Siblings of current students are not eligible for the recruitment program.
2. For any additional students referred, a 5% discount will be applied to the account of the student giving the referral.
3. If a family recruits five (5) or more students in one school year, a full-tuition discount will be awarded.
4. The discount will be applied for one school year at the end of each semester, as long as the new student remains enrolled at the School for Children.
