- College Algebra
- Speech
- Statistics

NURSING

Think with Clarity.
Act with Integrity.
Serve with Purpose.
Dream with Confidence...

AT SOUTHERN NAZARENE UNIVERSITY, WE DON'T JUST BELIEVE IN YOUR DREAMS. WE EQUIP YOU WITH THE BEST EDUCATION WHICH GIVES YOU THE CONFIDENCE TO MAKE YOUR DREAMS A REALITY.

We know you are selecting a university for more than just its location or school colors. You want to go somewhere that will prepare you for the future. Your future.

At Southern Nazarene University, we want that for you too. That is why we work hard to make sure our degrees are supported by some of the top curriculum available.

We hire highly-qualified faculty who not only know the ins and outs of the profession you seek, but who truly wish to see you succeed individually. We make sure you leave SNU prepared for a great job in nursing. That's why we can encourage you to not just dream, but to dream with confidence.

WITH HIGHLY ACCREDITED PROGRAMS & STANDARDS

At SNU, you can trust that you are getting the highest quality nursing education. Our program is approved by the Oklahoma Board of Nursing and accredited by the Commission on Collegiate Nursing Education (CCNE). Our Nursing program is more than just accepted, it's respected.

At SNU you are not just a number. The nursing program is taught by experts in the field of nursing who are also your advisors. There is NO waiting list for entry into SNU’s nursing program. If you meet the requirements, you are admitted. The requirements are a 2.75 or better GPA and C or higher in the pre-requisite and co-requisite courses. You will receive individualized attention from faculty, who want to know you as a person and help you reach your goals.

WITH UNIQUE LEARNING OPPORTUNITIES

We know the best learning often takes place outside of the classroom. You will have opportunities to learn skills in the safe environment of a nursing lab, then translate those skills into the clinical setting. SNU’s location in Bethany, surrounded by Oklahoma City, allows for clinical portions of the program to be in area hospitals, community health agencies, schools, and clinics.

As a nursing student at SNU, you will explore all facets of nursing. Whether you want to be a pediatric nurse or care for adults, our program will give you the skills to be a nurse who looks at patients with compassion and caring. As the population ages so will the patients. SNU offers Gerontology Nursing Class to help you as a practitioner understand the unique challenges in caring for an older population. If pediatrics has your heart, rotations at The Children’s Center and Children’s Hospital will give you insight into caring for pediatric patients.
SNU nursing students have opportunities to be in an Extern Program in regional medical facilities between their junior and senior years. Students have the opportunity in their leadership class to work with a preceptor in a nursing setting. Sharpened clinical reasoning skills give an increased depth to learning in preparation for working as a registered nurse.

Consider taking your nursing talent to a third world country by joining one of several overseas trips over Christmas Break, Spring Break, or Summer Break. Talk to a professor to learn more about these opportunities when you schedule your campus visit.

WITH HIGHLY-QUALIFIED PROFESSORS
SNU nursing faculty are experts in their fields. You will learn from faculty with backgrounds in Neurology, Cardiology, Obstetrics, Emergency, Intensive Care, Medical-Surgical Areas, Pediatrics, Community, and Mental Health. At Southern Nazarene University you will find nursing faculty who are Certified Nurse Educators, the current President of the Oklahoma Emergency Nurses Association, CPR Instructors for the American Heart Association, a House Supervisor at a regional healthcare facility, and faculty for the Nurse Extern Program at Mercy Hospital. These multi-talented faculty enjoy teaching and mentoring students. All of the faculty are members of Sigma Theta Tau, an International Honor Society with an emphasis in research. At SNU you will learn from the best.

WITH PREPARATION AFTER GRADUATION
SNU nursing students are prepared to take the National Council Licensure Examination and move into the workforce. Clinical agencies, where students work consistently, state that SNU nursing graduates are knowledgeable, compassionate, and caring registered nurses. Over the past three years, SNU nursing graduates have all found jobs within three to six months after graduation. SNU nursing graduates work in a variety of settings: cardiac, obstetrics, pediatrics, home health, emergency nursing, and many more. SNU students often return to school becoming nurse practitioners, clinical nurse specialists, and nurse educators. Whatever your dream, you can achieve it!

Brooke Brantley, an SNU nursing graduate, has been a nurse for more than 4 years and is currently the Nurse Manager of Med/Surg at Mercy Hospital, Oklahoma City. She also serves as an adjunct faculty member.

Brooke completed her Masters in Nursing Education in December 2011 with a 4.0. She is a member of Sigma Theta Tau Honor Society for Nursing and Mortar Board. Brantley attributes her career success to a number of factors. “I believe I am where I am today because of God, hard work, a wonderful supportive family, and the education I received at SNU. I attended SNU and played tennis during my undergraduate degree in nursing, and it’s wonderful to have the Christian education and the support of the nursing department to continue to play sports while in nursing school. The encouragement of the faculty helped me push and stretch myself, and this is largely what helped direct me to become a manager early on in my career.” says Brooke.

If a dream is a blueprint of a goal not yet achieved, at SNU we partner with you to focus your efforts to attain whatever it is you hope to accomplish. Thus, we say DREAM WITH CONFIDENCE.
